2018

Ahead!

COLOR ME!

WILLOWWIND
SUMMER PROGRAM

Choose Willowwind this summer...

Dear Willowwind Friends,

We are pleased to present Willowwind's 2018 Summer Program, "Full STEAM Ahead." In this brochure, you will find some old favorites as well as a number of new, engaging classes. Collaborative programming with the University of Iowa and more 6-8th grade classes are new enhancements you can look forward to this year.

Some exciting new classes include Storybook Adventure and Around the World in our Preschool classrooms. A second session of our Kindergarten readiness class has been added to help preschool friends make the big transition to kindergarten work. More outdoors, art, and technology based classes have been added to our 1-2nd and 3-6th grade catalogue. Our 6-8th grade classes have expanded to include art-based courses alongside our popular technology-based options.

Unique learning experiences, small multi-age classrooms, experienced educators, and a culture of caring are characteristics that set Willowwind apart from other programs. Our summer classes engage students in exciting, hands-on, experiential learning. Classes are organized in five multi-age groups: preschool (ages 3-5), kindergarten, 1-2nd grade, 3-6th, and 6-8th. Class sizes of 10-16 students ensure each child gets individual attention and is able to take an active role in the classroom.

Willowwind's summer faculty are experienced educators, artists, and specialists in their field. Most of our summer teachers return year after year and some are current Willowwind staff. We are delighted by the excellence of our summer faculty and their commitment to your child's education. Finally, Willowwind's safe, caring environment provides students with the opportunity to grow and learn socially, emotionally, and academically.

We look forward to seeing you and your child in the coming months as we go Full STEAM Ahead into summer!

Sincerely,

Jessica Palmer
Programs Coordinator

...for an adventure
...to meet new friends
...to learn something exciting

Registration and Policies

To secure your space in a class, you must pay half of the total tuition (including the registration fee and any optional B/ASP fees) at the time of registration. Any remaining tuition will be billed in equal monthly installments on the first of each month throughout the spring (see specific billing dates online when you register). If payment is not made in full by the time the payment plan is complete, we reserve the right to cancel your registration. We process all registrations in the order in which they are received. We accept registrations as long as there is space available. We do not offer prorated tuition for absences or late starts, and cannot accommodate drop-ins.

There is a once per summer non-refundable registration fee. The registration fee is \$10 per student for online registration and \$30 per student for paper registration.

WHO CAN REGISTER

Public, private, and home schooled students going into preschool through eighth grade. Preschool students must be toilet-trained and at least three years old by the start of class. Willowwind School provides equal opportunity to participate in programs and does not discriminate by gender, sexual orientation, gender identity, marital status, socioeconomic status, disability, race, national origin, color, religion, or creed.

HOW TO REGISTER

Registration for summer classes begins on January 15th, 2018. Families can register online using the links below.

Families new to Willowwind Summer Program:
<https://willowwind.campmanagement.com/enroll>

Returning families:
<https://willowwind.campmanagement.com/campers>

These links are also available on our website.

Questions? Call 319-338-6061
or email jessicap@willowwind.org

CLASS CONFIRMATION

Online registrants will receive an email confirmation within two business days of registration. Within two weeks of your paper registration, we will send confirmation of your payment and your spot in class. Closer to the start date of the class, we will send a more detailed email confirming class dates and times, location, and other general information. Thank you for choosing Willowwind Summer Programs!

Bring...

water bottle

comfy clothes & shoes

a good attitude

lunch and snacks

...every day.

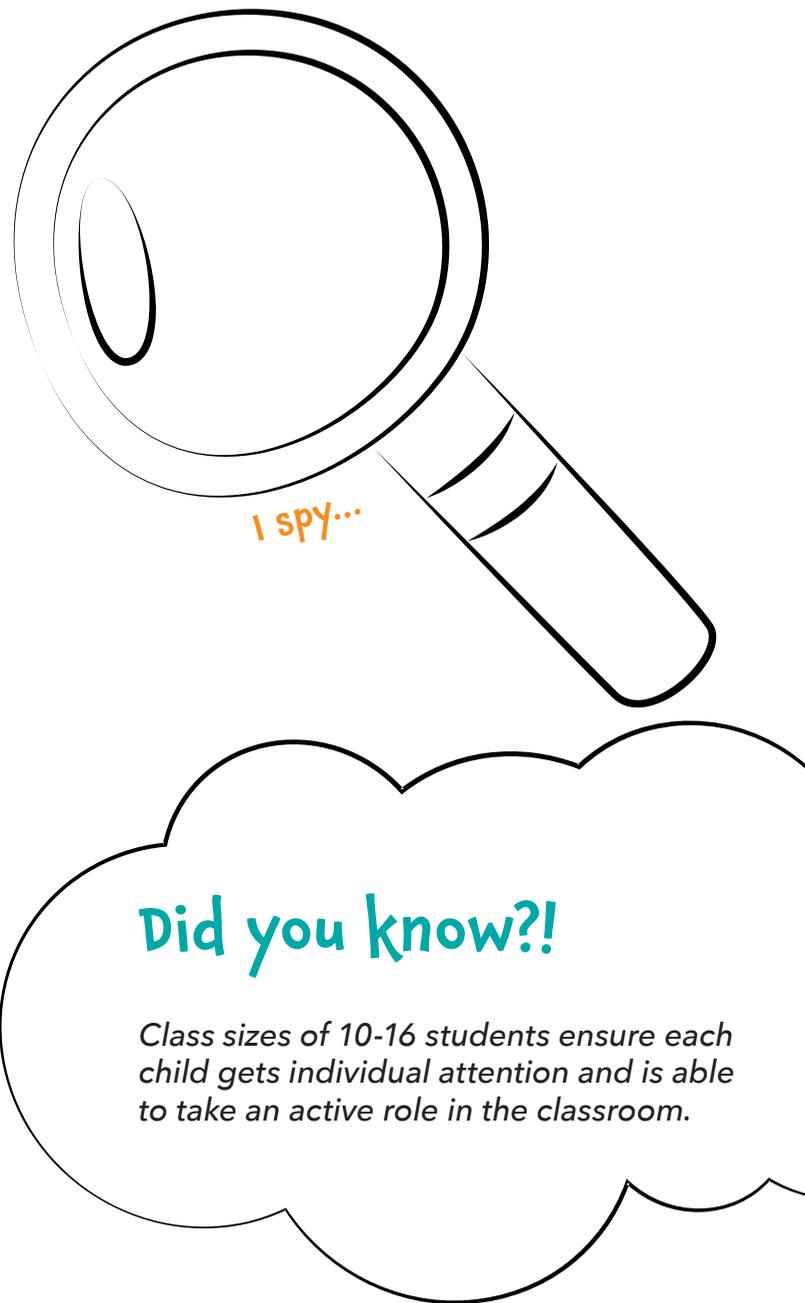

Class Cancellation Policies

All class cancellations must be processed by Willowwind staff, even if registration was processed online.

1. If you cancel your registration at least four weeks before the class begins, we will refund tuition, less a \$50 cancellation fee per class.
2. If you cancel your registration less than four weeks before the class starts, no refund will be given. Any tuition paid for the cancelled class, minus the \$50 cancellation fee, becomes a credit, which you may use toward another Willowwind 2018 Summer Program class. Any difference in cost from the new class will not be refunded.
3. No credit or refund is given to any cancellations occurring within two business days of the start date of the class.
4. If tuition has not been paid in full by the time the monthly payment plan is complete, and no action to cancel has been taken, no refund or class credit will be issued and the registration will be terminated.
5. Cancellation by Willowwind: We reserve the right to cancel a class if enrollment is insufficient. Any tuition paid will be refunded in full.
6. We want all students to be satisfied with their experiences at Willowwind School. If after attending the first day of class, you decide that you do not want to continue, let us know before the second class and your tuition will become a credit, which you may use toward another available space in a Summer 2018 class. In this case, BASP fees are non-refundable and will not be credited. After the second day of class, we will not make any tuition or enrollment adjustments.

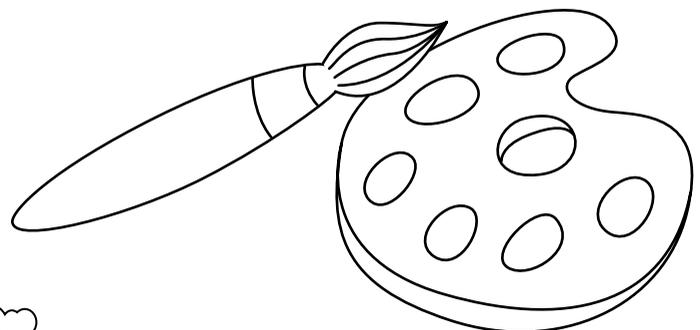

Behavior

All students have the right to learn in a safe classroom that is free from excessive distraction. When a child's behavior becomes a problem, the faculty and staff use a number of strategies beginning with re-teaching, reinforcing, and acknowledging appropriate behavior, and moving on to redirecting an individual student. If a child is unable to correct behavior or is unresponsive to teacher interventions, Willowwind reserves the right to excuse the child from summer programs and provide parents with suggestions for other summer program placement. Refunds will not be made for current camp class days not attended due to dismissal. Should the child be registered for future camps, we will refund for tuition fees paid at time of dismissal.

Attendance

We expect students to attend every day of the classes in which they enroll, except in the case of illness or emergency. If a student does miss class, regardless of the reason, tuition will not be prorated and refunds will not be issued.

Before and After Summer Program

Our supervised and educational Before and After Summer Programs (BASP) are engaging for children and make pick up and drop off more convenient for families.

BSP: 7:30am-8:30am \$35/week
ASP: 3:30pm-6:00pm \$80/week

1. We offer before and after care for campers. The Before Summer Program (BSP) is from 7:30am-8:30am and is \$35/week; the After Summer Program (ASP) is from 3:30pm-6:00pm and is \$80/week. Registration for BASP occurs with class registration.
2. If you cancel your registration in BASP at least four weeks before the start date of the program, we will refund BASP fees.
3. If you cancel your registration in BASP less than four weeks before the start date of the program, no refund will be given. Any fees paid for BASP become a credit, which you may use toward another Willowwind summer class during Summer 2018.
4. No credit or refund is given to any BASP cancellations occurring within two business days of the start date of the program.
5. If BASP fees have not been paid in full by the time the monthly payment plan is complete, and no action to cancel has been taken, no refund or class credit will be issued and the child's registration in BASP will be terminated.
6. If a student misses BASP or is picked up early, or dropped off late, fees will not be prorated.
7. We can only accommodate drop-ins with prior notice at a rate of \$20 per day for After Summer Program and \$10 per day for Before Summer Program. Please be sure to call the office at (319) 338-6061 prior to dropping in.

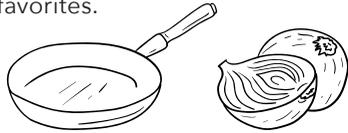

Lunch Supervision

Lunch supervision from 11:30am-12:30pm is free for K-6th grade campers when the child is registered for both morning and afternoon classes.

Lunch supervision may be purchased for \$40 per week for campers signed up for half day camps only. No prorating available.

PRESCHOOL

FULL DAY CLASSES		8:30AM - 3:30PM	
June 4-8	<p>ART CREATIONS \$230</p> <p>Explore the fundamentals of art: shape, line, color, and space. Express your creativity with paint, crayons, mosaics, and more. Students will apply principles of design and other art structures and understand art through history and culture by learning about famous artists.</p>	July 9-13	<p>KIDS IN THE KITCHEN \$230</p> <p>Mix, shake, and bake. Put on your apron and stir up a tasty treat as we explore the kitchen. Taste new foods and learn to make old favorites.</p> 
June 11-15	<p>CAMPING ADVENTURES \$230</p> <p>Have you ever wondered what it would be like to go camping? Explore the great outdoors in a whole new way by learning how to make camping food, identify bugs and plants, and hike around Willowwind's campus in this week of adventurous fun.</p>	July 16-20	<p>STARS, PLANETS, AND SPACE \$230</p> <p>What happens when the sun goes down? Blast off into outer space to see planets, stars, and moons. When you return to Earth, learn about the animals who love the dark of night.</p>
June 18-22	<p>MUSIC MAKERS \$230</p> <p>Music lovers won't want to miss this week! Participate in dance games, play musical chairs, and learn about instrument families. Enjoy visits from musical guests as you explore different kinds of music. Students will create their own music and develop beat keeping, ensemble playing, and rhythmic skills.</p>	July 23-27	<p>AROUND THE WORLD \$230</p> <p>Take a trip around the world! Virtually visit new countries every day and discover the different foods, music, and customs of each location. Explore different cultures through crafts, games, and projects during this week of travel.</p>
June 25-29	<p>UNDER THE SEA \$230</p> <p>Travel to imaginary beaches to build standcastles, search for seashells, learn about waves, and discover the animals that live in the ocean and on the shore. Learn how to care for our oceans and these important ocean creatures.</p> 	Jul 30-Aug 3	<p>STORYBOOK ADVENTURE \$230</p> <p>Little Red Riding Hood, Goldilocks, and the Boy Who Cried Wolf! Practice the art of storytelling through songs, crafts, and acting. Explore different classic stories every day in this literature themed class.</p>
July 2-6 *	<p>STARS AND STRIPES \$185</p> <p>Celebrate Independence Day with classic American traditions. Play baseball, make an apple pie, and create crafts with red, white, and blue. Learn about amazing sites in the USA, their significance to our society and culture, and what makes them special.</p> <p>*NO CLASS JULY 4</p>		

Spring Break Camp

March 12th-16th

COOKING AROUND THE WORLD (PREK) *

Put on your chef hats and get ready to take your taste buds on a trip around the world! Beginning in the US, travel to Italy, France, Asia, and South America, and learn how to cook food from each region. Explore the traditions and customs of each culture and how they relate to cooking. Learn how to measure ingredients, chop vegetables, and mix while practicing safe kitchen procedures. Then enjoy the fruits of your labor and try your tasty treats!

* K-6 description on page 12

Curious about Preschool at Willowwind?

The goal of Willowwind's Montessori Preschool program is to teach the child as a whole, equally guiding the physical, social, emotional, and intellectual growth of each child. Through the prepared environment, calmness of the teacher, and attention to grace and courtesy, we strive to offer an educational experience based upon the teachings of Maria Montessori. We offer both full-time and part-time options for preschoolers aged 3-5 years.

Certified teachers lead students in the core Montessori curricular areas of practical life, sensorial, mathematics, language, cultural, and humanities. Preschool students are also provided instruction in science, art, music, physical education, and Spanish.

Full-time Preschool

Monday-Friday, 8:30 am to 3:30 pm

Part-time Preschool

Monday-Friday, 8:30 am to 11:30 am

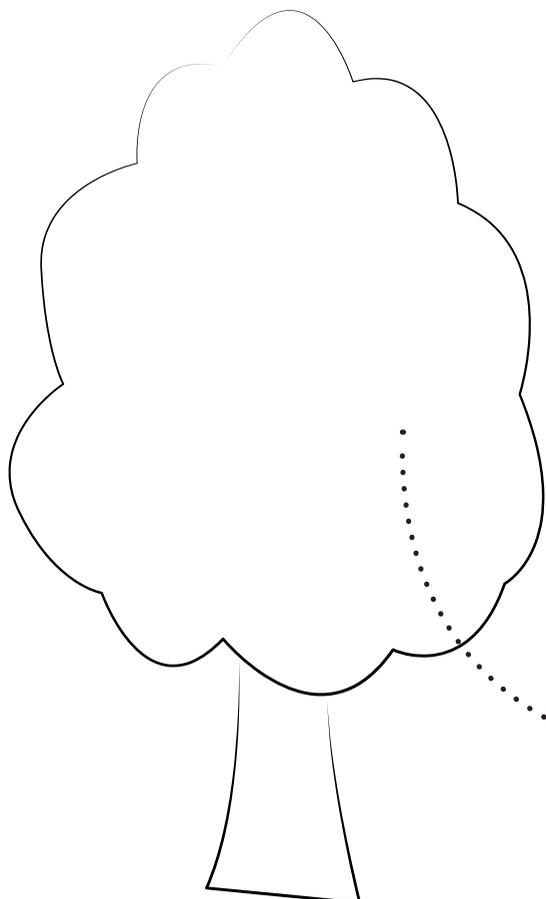

We encourage families to schedule a tour to observe and enjoy the spirit of learning that takes place at Willowwind's Montessori Preschool!

To schedule a tour, email info@willowwind.org or call (319) 338-6061

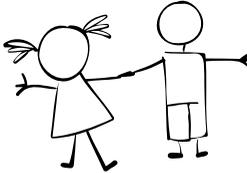

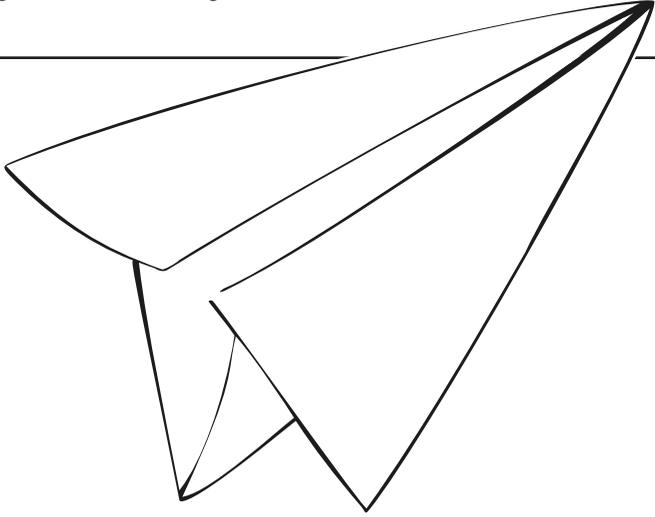

Our Montessori Program Fosters:

- Independence
- Joy of learning
- Love of order
- Learning through discovery
- Concentration
- Self-discipline
- Ability to make decisions
- Self-confidence
- Peaceful problem-solving skills
- Care of the environment

KINDERGARTEN

	MORNING CLASSES 8:30 - 11:30AM	AFTERNOON CLASSES 12:30 - 3:30PM
June 4-8	<p>JUNIOR KINDERGARTEN \$310 (2 WEEK CLASS) Welcome to the world of Kindergarten! Students entering kindergarten in the fall of 2018 are invited to learn about the exciting world ahead of them in this two-week course. This class will focus on learning skills for success in their new classroom environment. This class serves as an introduction to academic and interpersonal skills for children making the transition from preschool to kindergarten work.</p> 	<p>FITNESS FRENZY \$160 Students will stay active by hiking, playing, and gaming during this week of camp. Kindergarteners will develop motor skills and movement patterns by engaging in a variety of sports, obstacle courses, and more to get their bodies moving. Apply this knowledge to learn about the importance of physical exercise and maintaining a healthy lifestyle.</p>
June 11-15		<p>MUSIC AND MOVEMENT \$160 Do you love to move, groove, shimmy, and shake? Bang on pots and pans? This camp is for you! Join Willowwind's music teacher, Hannah, for a week of dancing, making music, and shaking those sillies out. Learn how to play different instruments and express emotions through music and dance.</p>
June 18-22	<p>OUTDOOR ADVENTURES \$160 Explore the great outdoors in a series of walking field trips to nearby parks, and go on scavenger hunts for plants, animals, and other natural objects. Develop an understanding of living things, their basic needs, and how they interact with each other and the physical environment. What wonderful adventures are waiting right in our backyard?</p>	<p>PALEONTOLOGY \$160 What did the earth look like over 65 million years ago? What do we know about dinosaurs that roamed the earth and what caused their extinction? Examine these questions and more as you learn about the prehistoric creatures of land, water, and air.</p>
June 25-29	<p>HEALTHY KIDS \$160 Learn how to take care of YOU! In this class, explore how to make easy, healthy snacks and choose food from different food groups. Practice the importance of stretching, and exercise by playing games and moving your body. This class has lots of movement, activity, and energy!</p>	<p>FARM TO TABLE \$160 Learn how to care for the garden and ourselves! Students will learn what a garden is, the different kinds of plants it can grow, and how to care for it by working in Willowwind's garden. Then listen to guest speakers or venture off campus to learn how garden produce makes its way to stores, restaurants, and into your refrigerator at home. Harvest plants and create your own meals out of fresh garden goods.</p>
July 2-6 *	<p>PAPER MACHE CREATIONS \$130 Engage in a week of fun and messy art projects using paper mache! Create a number of projects including pinatas, sculptures, puppets, and masks in this hands-on class.</p> <p>* NO CLASS JULY 4</p>	<p>EXPLORING SPANISH \$130 Have you ever wanted to visit a different country? Explore Spain, Mexico, Central and South America this summer! Learn about Latin cultures, activities, and foods through books, games, and cooking.</p> 

K-6 After School Enrichment

In addition to our Summer Program, Willowwind also offers a wide variety of after school enrichment classes and clubs through the year. Just like camp, these offerings are open to all Iowa City area preschool through sixth grade learners. Visit our website to learn more about enrichment. www.willowwind.org/enrichment

UPCOMING SPRING 2018 CLASSES INCLUDE:

- » Lego League
- » Coding
- » Chess Club
- » Ooey Goey Science
- » Book Club
- » Music and Movement
- » Mixed Media Art
- » Soccer
- » Spanish

	MORNING CLASSES 8:30 - 11:30AM	AFTERNOON CLASSES 12:30 - 3:30PM
July 10-14	COOKING UP A STORY \$160 Ever read a story describing a perfect pie or a scrumptious stew and wish you could make it yourself? We will let children's literature inspire us in the kitchen and take us on our own cooking and baking adventures.	MAKER'S SPACE \$160 Create a new use for everyday items as you engineer structures such as towers, airplanes, and houses! Use higher order thinking to problem solve and complete challenges using a wide range of materials. All you need is your imagination and anything is possible!
July 16-20	GET READY FOR KINDERGARTEN \$565 (FULL DAY, 2 WEEK CLASS) Explore the brand new world of kindergarten! Any child entering kindergarten in the fall of 2018 is invited to participate in this full day, two-week course that will focus on skills for success in their new classroom environment. With literacy, math, science, movement, and social skills featured, children are sure to build confidence about their new learning adventure. This class reflects an actual school day at Willowwind with time for specials classes. Academic and interpersonal skills instruction will be specialized for children making the big transition from self-directed preschool experiences to project-based kindergarten work.	
July 23-27		
Jul 30-Aug 3	BEHIND THE SCENES \$325 (FULL DAY) Have you ever been behind the scenes of a theater? Wondered what goes on at a police station or a science lab? Students will visit unique places in Iowa City and learn what really happens behind the scenes. Behind the Scenes will split into two groups for maximum exploration! K-2 nd and 3 rd -6 th grade groups will visit everyday places like the grocery store, and more unique places like a local theatre or bowling alley! Groups will spend the last day of Summer Program together, celebrating all of the fun filled learning experiences they had. (Includes transportation costs.)	

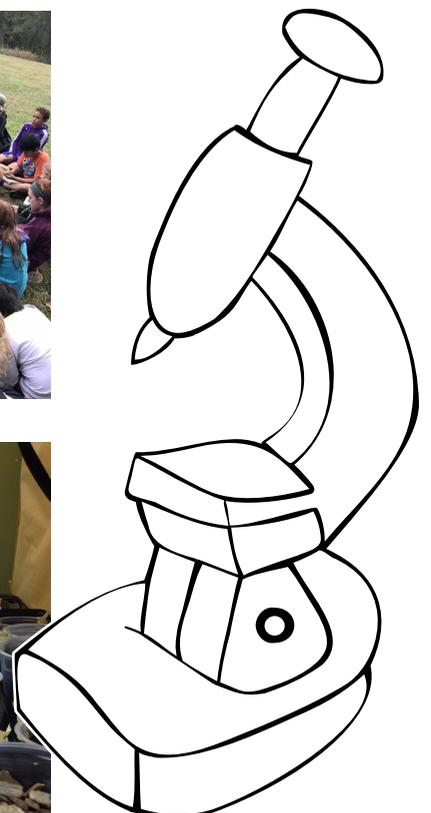

Curious about K-6 academics at Willowwind?

Academic excellence is not simply a destination but a journey we undertake. It lives and breathes in Willowwind's mission, in the meaningful work of its students, in rigorous challenges and connections between what they learn and how they live, and in a shared commitment to the growth of each individual student. Willowwind cultivates an environment where students excel. Research-based and best-practice curricula are designed to ignite students' interests and passions while challenging the abilities in every student.

Beyond a solid academic program, Willowwind also provides a social curriculum that emphasizes students' respect and appreciation in themselves, others, and the natural world. Students are encouraged to think like global citizens. This provides students with a sense of belonging, a climate of trust, and a joyful merging of social, emotional, and intellectual development. Willowwind has a strong commitment to developing positive individuals by creating purposeful opportunities for students to act upon their desire to grow as respectful citizens in the local community and beyond.

Contact us to set up a tour by emailing info@willowwind.org.

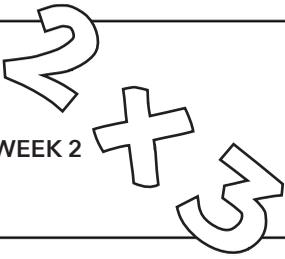

Sliding scale tuition and financial aid opportunities are available.

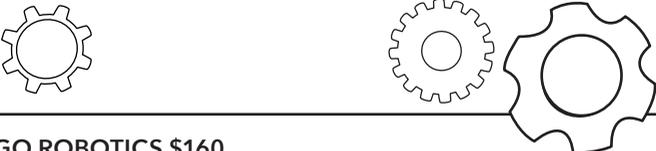

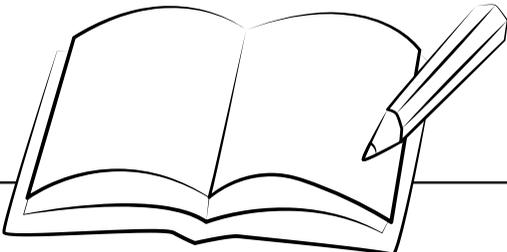

FIRST & SECOND GRADE

***UPDATED SCHEDULING**

	MORNING CLASSES 8:30 - 11:30AM	AFTERNOON CLASSES 12:30 - 3:30PM
June 4-8	TRAILS AND CREEKS \$165 Discover the beauty of the parks and prairies in our surrounding area by exploring its trails and creeks. You'll learn about the trees, plants, and creatures and their significance to the environment as you explore the great outdoors.	MIXED MEDIA MADNESS \$160 * Create soft sculptures out of fabric, packing peanuts, cardboard and other materials. In this class, students will develop their skills to make art out of fiber, recycled materials, and different types of paint.
	NATURAL ART \$160 * Explore and create in this nature themed art adventure. Students embark on scavenger hunts and collect the natural materials that they'll use to create beautiful works of art. Learn how to work with wood, make prints with leaves, and weave with natural fibers.	ASTRONOMY \$160 Blast off into outer space to learn about the galaxy, stars, solar system, and meteors! Develop and apply knowledge of daily and seasonal weather conditions, seasons of the year, and other patterns affected by space. Engage in hands-on activities to learn all about what goes on in the universe around us.
June 11-15	BUST THE MYTH \$160 Do everyday objects such as cell phones or light switches have more germs than a toilet seat? Why do pop rocks and soda combined explode? Are pirate eye patches used for fashion or do they serve a practical purpose? Based on the hit TV show "Mythbusters", students will use the scientific method to test whether popular legends, rumors, and myths are actually true.	AMAZING ANIMALS \$160 * Explore the animal kingdom through art, science, writing, and games. One day we might befriend lions in the Serengeti and the next we might learn the ways of the mysterious giant squid. Either way, we'll be sure to end up with a marvelous zoological story.
	WORLD MUSIC \$160 * Get your passports ready to explore the rhythms of the world! Travel the globe as we learn about the musicians instruments of other countries, play games, create instruments, and move our bodies to the beat with cultural dances. Develop rhythmic and ensemble playing skills in addition to developing cultural awareness.	ARTIST'S STUDIO \$160 Paint, cut, and color your own masterpieces using oil pastels, water colors, tempera paints, colored pencils, and chalk! Learn about famous artists, and examine art in relation to history and culture as students create personalized pieces of art.
June 18-22	DR. SEUSS \$160 Green Eggs and Ham, Horton Hears a Who, Fox in Sox, and The Cat in the Hat! Enter the world of beloved children's author Dr. Seuss as you read and understand his work. Then use your imagination to create amazing "thinks" as you write your own poems and short stories filled with magical creatures, thingamabobs, tongue twisters, and adventures!	FIBER ARTS \$160 Learn how to sew! Use recycled fabric, buttons, and other materials to design and create your own projects, such as sewing stuffed creatures, pillows, tie dying, and other works of art. Learn to use a needle and thread, choose materials, and make a plan to craft touchable art!
	MONEY CENTS \$160 Work within a budget as you complete real-world projects. Utilize math, science, logic, and reasoning skills as you learn how to budget appropriately to make the most efficient use of your resources. Learn the common 'cents' that go into smart money management.	SPANISH EXPLORATION \$160 Visit Spain, Mexico, Central America, and South America! Learn about Spanish speaking communities in the United States. Learn and review vocabulary including colors, numbers, animals, family, and more!
June 25-29	CLAY CREATIONS \$160 We'll use our hands to create works of art and then fire them in Willowwind's on-site kiln. Students will learn pottery and sculpture techniques, and examine art in relation to history and culture in this hands-on class.	CREATIVE DRAMA \$160 * Construct a short play from the ground up through fun and creative theater games. From set construction, props, and costume creation to memorizing lines, students will learn what it takes to put on a play in five days!
	CAMP WILLOWWIND \$160 * Have you ever built a fire, and then cooked your lunch over it? Explore the great outdoors by learning how to set up a tent, build a fire, and cook a meal! Hike around Willowwind's campus while learning to identify plants and animals and enjoy the great outdoors in this week of adventure.	MAKER'S LAB \$160 From making bubbles with dry ice and exploring magnetism, to making a bulb light up using cardboard, washers, and pennies, students will explore a new science-based theme each day.

	MORNING CLASSES 8:30 - 11:30AM	AFTERNOON CLASSES 12:30 - 3:30PM
July 2-6 NO CLASS JULY 4	SPANISH COMIC BOOK ADVENTURES \$130 * Have you ever wondered what comic books in another language might be like? This class focuses on comics and films from various Spanish speaking countries. Explore cultural differences and similarities through the fun of animation.	FITNESS FUN \$130 This class is full of energy and movement! There will be tons of fun games played all week to keep the students moving. Students will also be learning about why it is important to live a healthy life and what kinds healthy choices they can make in their own lives. Get ready to run, jump, and play all week!
	MARINE BIOLOGY \$130 Dive into the waters of the Atlantic and Pacific to learn about the creatures that call the ocean home. Explore the science behind oceans, such as waves and currents, and why this ecosystem is so important to human life.	LEGO CREATIONS \$130 * Build a device to prevent tigers from escaping, a sturdy house able to withstand the weight of a textbook, or a device that can catch objects! Use higher order thinking to problem solve and complete challenges with LEGO® bricks as you construct buildings, cars, and other structures throughout the week.
July 9-13	SUPER SLEUTHS \$160 Have you ever wanted to be a secret agent? Solve mysteries, decode clues, and more in this sneaky class! Learn how to think critically to solve a mystery, use spy tools, and go on secret missions. We can't tell all the fun, though. That's a secret!	DINOSAURS \$160 A whole week of dinosaurs, prehistoric birds, and other creatures that walked the earth long ago. What animals roamed the earth and what caused their extinction? Answer these questions and more as you learn about the prehistoric creatures of land, water, and air.
	MATH & READING CHALLENGE \$430 (3 WEEK CLASS) This class is perfect to refresh your skills. Student book groups, strategic math and reading lessons, small group discussion practice, and a review of math concepts and innovative problem solving. Taught by licensed teachers, focusing on individualized instruction.	COOKING AROUND THE WORLD \$160 Put on your chef hats and get ready to take your taste buds on a trip around the world! Students will travel through Europe, Asia, and South America, and learn to cook delicacies such as gnocchi, gelato, or fruit galette. Practice chopping vegetables, rolling dough, and mixing ingredients!
July 16-20	MATH & READING CHALLENGE WEEK 2 	MUSIC COLLABORATION \$160 Explore how music connects to every aspect of life whether it is a life skill, mathematics, physics, language arts, visual arts, physical education, technology, imagination or free time. Enjoy a week playing instruments, singing, playing music games and creating art projects.
	BACKYARD WILDLIFE \$165 What's that creature in your backyard? Learn about the native animals of Iowa in this animal camp. Go exploring around Willowwind to study how animals eat, live, and move in Iowa City. Then visit the Iowa Raptor Project to see native birds in action! (Transportation included in cost)	OOEY GOOEY SCIENCE \$160 Learn about physical and chemical reactions through engaging and messy science experiments! Create an exploding volcano out of baking soda and vinegar, make exploding chalk, flubber, sticky sand dough, slime, bouncy balls, and much, much more! Explore the "why" behind these fun experiments!
July 23-27	MATH & READING CHALLENGE WEEK 3 	LITTLE ENGINEERS \$160 Engineer your way through literature as you learn the science behind beloved children's classics, such as the <i>Three Little Pigs</i> , <i>Goldilocks and the Three Bears</i> , and <i>Humpty Dumpty</i> . Hypothesize, problem solve, test, and create structures that can withstand the big bad wolf, or protect an egg as it topples to the ground as you engage in hands-on experiments!
	STORYTELLERS \$160 Do you love stories? Are you always imagining adventures? This class will explore the art of storytelling, through illustrations, acting, writing, and speaking! Learn how to tell a compelling story with an introduction, interesting characters, and plot twists galore.	SCULPTURE BUILDING \$160 Unleash your inner Donatello or Michelangelo as you understand and apply media to create three-dimensional artistic creations with recycled objects. Create recycled robots, plastic bottle sculptures, shoebox towers, and more!
Jul 30-Aug 3	BEHIND THE SCENES \$325 (FULL DAY) Have you ever been behind the scenes of a theater? Wondered what goes on at a police station or a science lab? Students will visit unique places in Iowa City and learn what really happens behind the scenes. Behind the Scenes will split into two groups for maximum exploration! K-2 nd and 3 rd -6 th grade groups will visit everyday places like the grocery store, and more unique places like a local theatre or bowling alley! Groups will spend the last day of Summer Program together, celebrating all of the fun filled learning experiences they had.	

THIRD-SIXTH GRADE

	MORNING CLASSES 8:30 - 11:30AM	AFTERNOON CLASSES 12:30 - 3:30PM
June 4-8	TEXTILE ARTS \$165 Sew, weave, and create touchable art in this fiber arts class. Use recycled fabric, buttons and other materials to create one of a kind projects, such as sewing stuffed creatures, pillows, tie dying, and more. (Material costs included)	GAME DAY! \$160 Ready, set, play! This class explores the wide world of games. Learn how to play strategic board games, work in teams towards a common goal, and practice good sportsmanship. This class covers games of all levels, from body movement to intense concentration to just plain silly and fun.
	3D ANIMATION \$160 Enter the world of 3D animation as you study the work of Pixar and Disney to understand how they create some of children's most beloved movie characters. Learn what animation is, and then have the opportunity to create your own 3D characters bringing them to life using Sculpttris animation software.	CREATIVE COOKING \$160 Learn how to make yummy snacks, and plan and prepare healthy meals. Gain an understanding of healthy eating, and then turn your favorite snacks and meals in to more nutritious options through alternative ingredients. You'll learn basic techniques for preparing cold foods, stovetop meals, and baking. Please note: recipes may contain eggs, dairy, and gluten.
June 11-15	OUTDOOR SURVIVAL \$160 How would you survive if you were stranded on a deserted island with no water or food? Learn how to build shelters, gather and preserve food, and complete survival challenges in various environmental scenarios.	CREATIVE DRAMA \$160 Dreaming of the limelight? Hone your acting skills as you create original short plays. Learn about set construction, props, and costume creation as well as how to tell a compelling story in just 5 days. This camp will feature a performance on the last day to give students a chance to share their work.
	SCRATCH PROGRAMMING \$325 (TWO WEEK CLASS) Join us for two weeks of creativity, problem solving, and collaboration as you learn to use a hugely popular programming language. Develop your Scratching skills and create exciting online projects to share with others. This class is open to novices as well as students who have previous programming experience, however, a little bit of background in programming is helpful. Students will be asked to create a free Scratch account prior to the beginning of class - directions will be provided.	SIMPLE MACHINES \$160 Do you have a curiosity for how things work? Ever tried to take something apart and then put it back together? Join us for a week of innovative tinkering and exploration! Gain an understanding of circuits, electronics, and how they are organized to make a working machine. Then spend the week taking apart simple machines and electronics to reconfigure the wires, sensors, and lights to create your own working machine. 
June 18-22	SCRATCH PROGRAMMING WEEK 2	LEGO ROBOTICS \$160 Do you love to create with LEGO® bricks? Are you curious about building robots? Join us for a week of great LEGO®-based science, technology, engineering, and math. Program LEGO® Field Robotics kits to make sounds, create a vehicle, respond to sensors, and more as you build, engineer, and solve challenges.
	MATH ACADEMY \$310 (TWO WEEK CLASS) Refresh your math skills and get ready for the incoming school year in this two-week math intensive course. Taught by licensed teachers, this class includes strategic math lessons and innovative problem solving. Spend the first part of class reviewing concepts from the previous school year. After review, students will be introduced to new math concepts they may encounter in the upcoming school year. Please note that math curriculum may vary from school to school.	COMICS AND ZINES \$160 Channel your favorite character to create your own comic book and/or zine. Students will develop their literacy and artistic skills by creating a finished book to take home at the end of the week. 

THIRD-SIXTH GRADE

***UPDATED SCHEDULING**

	MORNING CLASSES 8:30 - 11:30AM	AFTERNOON CLASSES 12:30 - 3:30PM
June 25-29	<p>MUSIC PRODUCTION \$170 (\$145 WITH OWN DEVICE) How do your favorite artists produce records? What goes on behind the scenes to release a radio hit? Explore the world of music production as you write, mix, layer, and edit your own soundtracks. Add electronic tracks like drums and beats to your own music. Finish the week with your own music release and take home a copy of your work.</p>	<p>EXPLORING SPANISH AROUND THE WORLD \$160 Visit Spain, Mexico, Central and South America in this Spanish course! Learn about the culture and ways of life in each of these countries through hands on participation. Eat tapas, play soccer, and explore Spanish speaking countries without a passport.</p>
	<p>MATH ACADEMY WEEK 2 *</p> 	<p>HEALTHY LIVING \$160 * Ready, set, move! This class includes a variety of high energy activities. Students will learn about what it means to live a healthy life, and what decisions they can make in their own lives to live a more fit life! This class will involve lots of high energy activity. Don't forget your tennis shoes and water bottle!</p>
July 2-6 NO CLASS JULY 4	<p>OPTICAL ILLUSIONS \$130 * It's all about perspective in this mind boggling class. Learn what optical illusions are and the science behind how they work. Then use your knowledge of perspective to take part in and create your own optical illusions through paper, pictures, and video! Video recording device required for this course (camera, phone, or tablet).</p>	<p>HEROES, GODS, & MORTALS \$130 * Gods and goddesses, myths and legends! Take a step back in time to learn about Greek mythology and examine these mythological elements. Through reading, writing, games, and projects, immerse yourself into the world of Poseidon, Zeus, Hades, and more ancient figures!</p>
	<p>CHESS \$130 * Discover the movements of knights, bishops, queens, and kings as they travel across the board. We'll learn game set-up, rules, and strategies of this time-honored game. Beginners will learn how to play the game while experienced players will put their strategic and problem solving skills to the test by learning more advanced playing techniques.</p>	<p>CHEMISTRY & EXPLOSIONS! \$130 * Study chemical and physical reactions through explosive experiments! Make explosive experiments, examine the mysteries of Mentos fountains and experiment with different kinds of rockets in this exciting and safe class.</p>
July 9-13	<p>SPANISH COMIC & FILM ADVENTURE \$160 * Learn about comics & films in the Spanish language! Focus on cultural differences and similarities through comic and film, and work towards creating your own Spanish comic book! At least one year of Spanish language knowledge is recommended for this course, but all learners are welcome.</p>	<p>STUDIO ART \$160 * Create art of all types this week. Design and paint with acrylic on canvas. Make multi-material picture collages using a variety of materials. Explore clay making, baking, and painting mugs. The perfect class for any budding artist!</p>
	<p>PHYSICS OF SOUND \$160 * Carrot whistles, PVC pipe xylophones, and flutes! What makes pitches sound high and low? How do instruments sound different from one another? Engage in hands-on, interactive projects as you use your knowledge of sound science to build and create life-like instruments out of PVC pipe and vegetables!</p>	<p>CODING \$170 (\$145 WITH OWN DEVICE) * Have you ever played a computer game and wondered how it works? Collaborate, problem solve, and communicate as you learn basic coding skills to complete various challenges through team building activities as well as on the computer.</p>

Spring Break Camp March 12th-16th

PERFORMER'S WORKSHOP (K-6) *

Dive into the world of the arts as students learn the ins and outs of performing a show! Students will spend the week working through the show making process by writing a script, blocking scenes, creating music accompaniment that enhances the theatrical performance, putting their art skills to work making scenery and backdrops, adding choreography to the show, and more! Whether your child enjoys art, music, theater, writing or even directing, this camp will be an enriching experience for the outgoing and shy alike! The week will conclude with a performance for family and friends. *See Preschool description on page 5

MORE THIRD-SIXTH GRADE

	MORNING CLASSES 8:30 - 11:30AM	AFTERNOON CLASSES 12:30 - 3:30PM
July 16-20	WRITER'S WORKSHOP \$160 Exercise and explore your writing skills in this brand new workshop! Students will explore the important aspects of language, narrative, and storytelling, as well as editing and revision. Practice sharing engaging perspectives and experience through the power of writing.	MYTHS & LEGENDS \$160 Do cell phones or light switches have more germs than a toilet seat? Do pop rocks and soda combined explode? Do you stay drier by running or walking in the rain? Can cola actually clean rust and pennies? Based on the hit TV show "Mythbusters", students will use the scientific method to test whether popular legends, rumors, and myths are actually true.
	MUSIC COLLABORATION \$160 This week, music will join forces with STEM subjects to help students discover how music ties in with the world around us. This class will challenge students as they learn new things and develop not only in the STEM subjects but also as they develop musically. Explore thinking logically, intuitively, analytically, and creatively through music!	3D PRINTING \$170 Have you ever imagined creating your own objects and tools such as a spoon, whistle, or wrench? Now is your chance to do so in our 3D printing class! Held in collaboration with the University of Iowa, the sky is the limit as students learn what 3D printing is, and how to create a digital model to print their own 3D object to take home. (Materials included in cost)
July 23-27	PHYSICS FUN \$160 How far will an object travel if it is launched into the air? What can we change to affect how to drop something onto a target? Learn the science behind projectiles, falling objects, and all things that move. This week of science and math will be full of engineering, scientific testing, and discovery!	PODCAST MAKING \$170 (\$145 WITH OWN DEVICE) Podcasts are becoming a growing trend that young people turn to for entertainment, information and education. Now is the time to learn how to make your own! Spend the week writing, editing, and recording your own podcast. Use your imagination as you choose to write a story, inform others about current events, or explain how to complete a specific task!
	IMPROV \$160 Do you like to make people laugh? Make up crazy stories on the spot? Flex your improvisational muscles with this brand new class! Play improv games, learn how to think on your feet, and create a story on the spot with your teammates. Class will conclude with a showcase at the end of the week.	WEB DESIGN \$170 (\$145 WITH OWN DEVICE) Have you ever been to a website and wondered how it was made? After learning about internet safety, students will spend the week researching a topic of their choice and creating a website on their topic. Adding information and pictures to web pages, and including links to documents and other web resources are among the topics that will be covered in this 21st century class.
Jul 30-Aug 3	BEHIND THE SCENES \$325 (FULL DAY) Have you ever been behind the scenes of a theater? Wondered what goes on at a police station or a science lab? Students will visit unique places in Iowa City and learn what really happens behind the scenes. Behind the Scenes will split into two groups for maximum exploration! K-2 nd and 3 rd -6 th grade groups will visit everyday places like the grocery store, and more unique places like a local theatre or bowling alley! Groups will spend the last day of Summer Program together, celebrating all of the fun filled learning experiences they had.	

K-6 After School Enrichment

In addition to our Summer Program, Willowwind also offers a wide variety of after school enrichment classes and clubs through the year. Just like camp, these offerings are open to all Iowa City are preschool through sixth grade learners.

Visit our website to learn more about enrichment.
www.willowwind.org/enrichment.

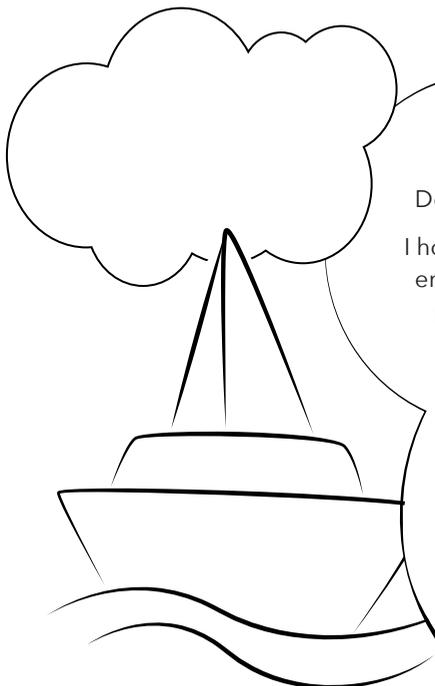

UPCOMING SPRING 2018 ENRICHMENT CLASSES INCLUDE:

- » Lego League
- » Coding
- » Chess Club
- » Ooey Gooley Science
- » Book Club
- » Music and Movement
- » Mixed Media Art
- » Soccer
- » Spanish

SIXTH-EIGHTH GRADE

	MORNING CLASS 8:30 - 11:30AM	AFTERNOON CLASS 12:30 - 3:30PM
June 4-8	MUSICAL THEATER INTENSIVE \$310 (FULL DAY) Take the stage in our brand new, full day musical theater class! Learn to sing musical theater standards, perform with a live musician, and work collaboratively with a team. Practice stage presence, preparation, and performance concluding in a special presentation at the end of the week.	
June 11-15	DAVINCI DIALOGUES \$300 (TWO WEEKS) Leonardo DaVinci was a polymath whose areas of expertise included painting, sculpture, architecture, science, mathematics, engineering, literature, anatomy, geology, astronomy, botany, writing, history, and cartography. In this special two-week course, you will trace sound as an expression of force and energy through multiple disciplines back to nature. Bridge science and art through a piece of string as you form connections through sound, numbers, shapes, color, food, and self. A new and innovative way to explore STEAM education!	SPANISH AROUND THE WORLD \$155 Travel the world during this Spanish language focused camp. Students will visit a different country every day, learning about customs, traditions, and ways of life. Students will also learn and brush up on different grammar topics each day, practicing what they've learned while writing letters to Spanish speaking pen pals. At least one year of Spanish language knowledge is recommended for this course, but all learners are welcome. 
June 18-22	WOOD CRAFTING \$160 After learning how to safely use common workshop tools, spend the week engaged in hands-on, interactive learning. Build creative projects from bird houses to tote boxes and more! Students may be required to bring some materials from home.	SYMPHONY CAMP \$160 Practice, perform, and play together in our new Symphony Camp! Geared toward musicians who have taken at least two years of lessons, there will be opportunities for every level of musical development as students gather to improve musicianship. Rehearse and perform in ensembles as well as break out into small groups to explore various aspects of music theory. The camp will culminate with a performance at the end of the week. Students should bring instruments from home.
	DAVINCI DIALOGUES WEEK TWO	
June 25-29	HEALTHY LIVING \$160 Focus on the impact of eating healthy and exercising, as well as mental health. Learn from a trained nursing student about how to best take care of YOU! From healthy recipes to meditation, this class will teach students to think about health as a whole body experience.	COMIC BOOK ADVENTURES IN SPANISH \$160 Do you love comic books? Learn about comic books in another language in this brand new Spanish course! Read popular comic books from various Spanish speaking countries, then write your own comic book in Spanish. Focus on writing, listening, reading, and speaking abilities in an art based class.

Dear Willowwind Summer Families,

I hope you find Willowwind School's Summer Programs will provide your child with enriched learning opportunities over Summer Break. We believe year-round academic programming provides children further opportunities to learn and grow all Summer long.

Willowwind is proud to offer exemplary education through rich experiential, hands-on learning. Curricula is meaningful and relevant, challenging yet age appropriate.

Willowwind School is truly an exceptional learning community. Based on your positive Summer Programs experience, should you find yourself eager to learn more about our school year programming, please don't hesitate to contact Willowwind School. My door is always open, and I'd be happy to discuss Willowwind's passion for education further.

Sincerely,

Michelle Beninga
